Garlinghouse **BLUE RIBBON HOMES**

The plans shown in this book represent only a fraction of the total number of designs which are available to you. We have 22 different plan books listed on the back cover of this book and in them are more than 1,250 designs from which you may choose the one you wish to build.

Complete Plans Available

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstandings.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U.S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

TO OBTAIN COST ESTIMATES—An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

Order Your Plans This Simple, Easy Way!

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order.

We have available to you the complete working plans, specifications, lumber and mill lists for the designs shown in this book and all of our other books (listed on the back cover) at the prices listed with the design (\$7.50 to \$25 per set). Your plans will be in the mail within 24 hours after we receive your order. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications explain in

detail the construction of the house from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

Select the design for your new home from a Garlinghouse Plan Book and send for the complete plans, specifications, lumber and mill lists. Secure them from your dealer, Loan Company, or The L. F. Garlinghouse Company, Inc., Topeka, Kansas. Plans for every design in this book and all the books listed on the back cover are available for prompt shipment on receipt of order.

No. 5705—This rectangular shaped plan shows how beauty and efficiency can be attained without sacrifice of economy. No costly offsets are shown, yet the rooms are large and there is easy passage between them. Hall space is at a minimum and the vestibule is located to give the living room the appearance of being much larger. Painting the horizontal and vertical siding in contrasting colors gives the exterior a pleasing appearance.

No. 5693—Long, low lines and a deep overhang of the roof give this ranch home an inviting appearance. The floor plan will meet with the approval of the homemaker that wants an efficient plan without sacrifice of comfort and livability. The plan shows both a basement and utility room. The basement which includes a recreation room could be omitted and heating equipment placed in utility room.

Complete plans as shown or reversed, specifications, lumber and mill list \$22.50

The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot or cubic-foot basis.

By the reverse of a plan it is meant that the design is available so that the rooms shown on the left will be on the right, and vice versa. This is done in order that the house may be oriented to suit your lot. When you order plans they will be sent as shown unless you specify that you want the reversed plan.

No. 5695—The modern clean-cut lines shown for this attractive home are achieved by the clever use of brick and siding, an excellent window treatment and the large overhang of the roof. The front bedroom windows are located high to permit furniture placement under them yet they admit ample light and ventilation.

No. 6138—Stone veneer, laid in a random pattern, has been used in the construction of this beautiful six-room suburban home. The floor plan is somewhat flexible to meet varying family requirements. The den, which has a large closet and a half-bath, can be used conveniently as a third bedroom. The rear bedroom has a private bath, but since there is another full bath and a lavatory the owner may prefer to omit this private bath thus enlarging the bedroom to 17 feet, 4 inches in length. French doors open from the dining room to the terrace.

The designs in this book were planned and designed after many years experience in building houses and helping people select plans for their homes. The designs have been carefully thought out with consideration for the requirements of the difference in the size of families and they are of maximum quality at minimum expense.

To build without definite plans invites misunderstandings, possibility of costly mistakes and faulty, weak construction. Secure your complete plans through your dealer or the L. F. Garlinghouse Co., Inc., Topeka, Kansas.

No. 20—An unusually beautiful cottage with a well-arranged floor plan. There are five rooms—living room with dining space, kitchen, breakfast room, two bed rooms, bath, besides a full basement and storage attic. Exterior walls are frame, sided.

		4,557

No. 6215—Careful planning is evident throughout this simple, but attractive, design. The house is skillfully divided into three areas of use which are well separated: namely, the kitchen-dining room section, the living room-den, and the bedroom area. The terrace would be handy as an outdoor dining room since it is reached directly both from the kitchen and the dining room. Each of the bedrooms has a double closet running the length of the room. The bath is especially nice, being divided into two sections, with a built-in dressing bench and a dressing vanity. Wood storage for the fireplace is provided in the compartment in the mantel. Construction is brick-veneer.

Minor alterations in design and material substitutions can be handled by any competent builder without causing you to go to the expense of having special plans prepared.

No. 2896—Here is a truly livable Colonial home that is simple and plain, but attractive in appearance. All rooms can be entered from the large halls. The spacious well-lighted living room is an outstanding feature since it is set off from the other rooms. A conveniently arranged kitchen permits easy access to the dining room, lavatory, hall and breeze-way. The sliding doors located in the closets of the small bedrooms eliminate waste space. Garage is designed to include space for work bench and tools. Garage and breezeway may be omitted if house is to be placed on a narrow lot. The house is of frame construction with shingled exterior.

In using Garlinghouse plans, the chance of costly errors is reduced to a minimum.

No. 6187—In simplicity there is beauty, as shown by this symmetrically-designed brick-veneer bungalow, framed by attractive planting boxes. Bedrooms and closets are larger than found in most five-room houses, and the bath is compartmented so that it may be occupied by more than one person. Access to the full basement is particularly convenient, since there are doors both from the kitchen and the garage. Windows are all of the wooden, double-hung type.

No. 6102—For the large window area which is one of the most distinctive features of this house a pleasant combination of stationary and casement sash is employed, bringing the advantages of the picture window to the center of the room and yet assuring ample ventilation. All the bedrooms have wardrobe-sized closets with by-passing doors for added convenience. The U-shaped kitchen has continuous counter space around the sink-range-refrigerator triangle, with room for a breakfast table. The partial basement extends only under the mid-section of the house.

Select the design for your new home from a Garlinghouse Plan Book and send for the complete construction plans, specifications, lumber and mill lists. Secure them from your local dealer, Loan Company, or from The L. F. Garlinghouse Company, Inc., Topeka, Kansas.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a “Money Back If You’re Not Satisfied” Guarantee. You have five full days after receiving the plans to study them over and decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

No. 8092—Brick has been used to accent the beauty of this design. The plan shows a compact and efficient room arrangement. The hall in the center allows easy passage between rooms. The porch alongside the living room could be enclosed for comfortable living throughout the year. Stairway marked “dn” leads to a full basement.

—SEE PAGE 64 FOR ORDERING INSTRUCTIONS—

No. 5642—This type of design is very popular in the southwest. The low ground-hugging appearance is due to the low pitched roof, combination of stone and shingles for exterior walls and by constructing the home with a concrete floor. The den is large and could easily serve as a third bedroom. Both the living and dining rooms are located out of the line of unnecessary cross traffic. Stone veneer is shown across the entire front of the living room and is shown used up

to the sill line with shingles above on the other elevations.

No. 6020—If the family requires a large house on a smaller lot few designs are as practical as the conventional two-story square, frame house shown here in a modern version. Its conveniences are many. The spacious entry hall with its guest closet not only offers an attractive setting for the exposed stairway, but also provides access to the kitchen, leaving the living room free from cross-traffic. Depending upon the owner's preference the rear room can either be a study with built-ins and storage closets or a well-proportioned bedroom. The master bedroom is commodious, with a self-contained bath and two walk-in closets with storage shelves. All bedrooms are especially cheerful since they have four sizeable windows.

The "reverse" of a plan means that the rooms which are shown on the left in the photo and floor diagram would be placed on the right. All dimensions and proportions are retained in the plan as reversed. To obtain the effect of a reversed plan hold the photo to a strong light and look through the rear side. Reverses are provided to allow you to orient the house to suit your lot.

No. 1731—This compact brick veneered house, with its entrance off the breezeway offers an exceptionally large living area through the combination living room and dining alcove. There is considerable storage space in the attic as well as in the full basement. Sleeping quarters are well segregated from the rest of the house and may be closed off by the one hall door.

There is one thing which should be remembered when selecting a plan for your new house. Although you are choosing a home to suit your own needs, it is wise to consider resale possibilities in case you wish to dispose of your property at some future date. In this respect a simple, attractive house, built with care and attention is your best investment in service, satisfaction, and salability.

No. 5115—This plan demonstrates the simplicity of design and the use of stock materials in creating demanded roominess for the least amount of money. Ample closets and a full basement provide adequate storage for everything.

Minor alterations in design and material substitutions can be handled by any competent builder, without going to the expense of making up special plans.

Our complete plans and specifications will save you many times their cost.

No. 6490—A fine example of the successful modernization of the basic Cape Cod design, this lovely four bedroom house is ideally planned to meet the needs of an active modern family. The living room and dining room provide ample open space for entertainment; the den for seclusion. The terrace to the rear is so convenient to the dining room that it invites use as an outdoor dining area not just for special occasions but regularly.

To the 82% who want Fireplaces

Surveys show that 82 percent of those planning homes want fireplaces in them. To all such, we recommend study of the Donley Book of Successful Fireplaces . . . a book that tells the principles of getting cheerful heat without annoying smoke . . . a book that gives you scores of suggestions for the way your fireplace may look . . . a book acclaimed as the best source of fireplace details and therefore used as a text in architectural and trade schools . . . Learn how to plan a conventional masonry fireplace, a 2 sided corner fireplace, 3 sided fireplaces, or a double opening fireplace that serves two rooms . . . how to install a prefabricated, steel fireplace, enclosed in masonry, that multiplies heat and circulates it throughout the room or house. Fuel saved by this Heatsaver Fireplace repays its extra cost in a few years.

If your interest is in an outdoor fireplace or barbecue, there is the booklet Donley Outdoor Fireplaces to guide you in getting the most satisfaction for the least effort and cost.

WHICH BOOKLET SHALL WE SEND?

Put a check mark in square No. 1 or No. 2 on the coupon according to your preference. For No. 1 send 50 cents (U. S. stamps accepted) and receive Book of Successful Fireplaces, 76 pages, 275 pictures, plans, diagrams dealing with both indoor and outdoor fireplaces. For complete information on outdoor fireplaces, send 25 cents and mark No. 2.
